Pricing

As a member, you are able to purchase a ½ or a whole pig share. There is a \$ 0.10 / lb. discount when purchasing a whole pig share.

The shares are priced to reflect the final “Hang Weight” of the finished pig, not inclusive of processing. You can expect to pay \$3.50 / lb. for the hanging weight of the finished pig, or \$3.40 / lb. if purchasing a whole pig. The pig share costs do not include processing costs, which are discussed below.

If purchasing a whole share, processing may be done at a facility of your choice, as discussed in the processing section of this document. If purchasing less than a whole share or unless otherwise agreed, processing will be done at a facility of Blue Barnyard’s choosing. The cost of processing will vary depending on the facility and packaging selected, but will average approximately \$1.05 / pound for vacuum packed meats and \$0.95 for butcher paper wrapped finishing. The finishing costs are dependent on processor and may vary year to year based on processor changes.

Processing

If purchasing a whole share, you may elect to have the processing done at a facility of your choice if you are able to provide the transport of the pig. If you elect to have Blue Barnyard provide the transport to a facility other than that which is used for the standard processing, there will be an additional transport charge.

If you elect to have Blue Barnyard managing the processing of the finished pig share, there is no charge for transport to the butcher selected by Blue Barnyard. You have the option to pick up your finished share directly from the butcher, or have Blue Barnyard collect the share and allow you to pick it up at our farm for your convenience.

Example Cost Scenario:

\$3.50 / lb. hang weight + \$1.05 / lb. Processing = \$4.55 / lb. total

For a 190 Lbs. Hang Weight Pig, the total costs would be $4.55 \times 190 = \$864.50$ Total, minus \$100 deposit, = \$764.50 due at pickup for a whole pig, or \$432.25 minus \$100 deposit = \$332.25 for a half pig.
